Issue Reported	Response	How was it resolved?
Search not case sensitive	Will be resolved on QueryEngine (QE) side	Pattern.CASE_INSENSITIVE
Different results when first search word is ""	Will be resolved on QueryEngine (QE) side	After trimming the string, if string is empty then ignored it
Citation count inconsistent	Could not reproduce issue	
Inconsistent results for citation count and year range	Will be resolved on QueryEngine (QE) side	GroupBy in query was not working correctly
Issues with validation of year	Will be resolved on UI side	Resolved by making year non editable field
Sorting by column inconsistent	Will be resolved on UI side	Year was being sorted by String, converted into int
Special character in search field leading to inconsistent results	Will be resolved on UI side	Constraint put on UI while handling special characters in search
, needs to be a part of search query	Our design does not support this functionality, documentation for same provided in user manual	
Citation or article count very large	Will be resolved on UI side	Constraint put on UI while handling article and citation count
Empty conference in dropdown	Will be resolved on UI side	Set as None
UI can be resized	Will be resolved on UI side	Provided scroll bars
Remove redundant code and variables		Resolved throught the code base
Conferences missing for committee data	Will be resolved on Parser side	Resolved by parsing new data for committee
Pasword is masked	Will be resolved on UI side	Resolved on UI, no *** seen now
Search results are editable	Will be resolved on UI side	Created non editable table on UI
DB connection is hard coded	Will be resolved on Parser side	Resolved on parser side
UI methods have too many lines of code	Will be resolved on UI side	Resolved by modularizing code
Search by author name	Not a part of our use case will add if time permits	Future scope
UI search triggered only on two clicks	Could not reproduce issue	
UI does not have tests	As mentioned on Piazza and interaction with TA's, running UI tests on Jenkins was causing issues. Added them to Excel sheet which is part of documentation.
